

Your Comprehensive Home Healthcare Partner

Comprehensive care is essential to a patient's recovery and quality of life. You can trust Comfort Health to provide personalized in-home care to meet each person's unique needs

Nursing Care

Skilled & complex nursing can help patients recover quicker.

Therapy Services

Physical, occupational, & speech therapy can enhance overall patient well-being.

Aides & Companions

Trained healthcare experts can visit patients at home & in assisted living facilities.

Veteran Support

VA Benefit Coordinators ensure veterans get the home healthcare they earned.

Our Company

Since 1982, Comfort Health has provided expert home health care to the Rochester area. We are Medicare certified and licensed by the Minnesota Department of Health. Our highly trained team works closely with referring physicians to ensure seamless coordination of care and optimal patient outcomes

Service Area

Rochester and a 25-mile radius

Referring Patients to Comfort Health

Our streamlined referral process facilitates open communication between healthcare providers and ensures a smooth transition of care for every patient.

Where to Start

1 Referral

We receive referrals from a wide range of sources, such as social workers, physicians, or those close to the client. Referrals can be submitted online, via fax, or over the phone to our Referral Coordinator.

2 Assessment

Upon reviewing the referral to ensure we can meet your care needs, we will schedule an assessment. During the roughly 2-hour assessment, we will work with the client and/or caregiver to develop a Plan of Care.

3 Plan of Care

We will work with the client to create a uniquely tailored Plan of Care, based on physician orders, client wants, needs, limitations, and any additional feedback from the client and/or caregivers.

For more details on the referral process and limitations, please visit comforthealth.org.
